

Scaling Local Hope into Global Impact

www.awnb.org

Discover how our dialogic agile approach turns youth employability, micro-entrepreneurship, women empowerment and 17 SDG goals into repeatable community wins from suburban Paris to rural Nepal, Sri Lanka, Cape Verde.

For... what?

Agility With No Borders is an NGO created in 2019 by Laurent and Sophie Sarrazin to develop social, financial, professional autonomy, and dignity for different audiences: disadvantaged people, professional transition, young dropouts.

Who we are

We are a collective of experienced practitioners in supporting organizations, teams and individuals, applying the best practices of the agile culture, solution-focus coaching, narrative practices.

What we do

We intervene, in France and abroad (Nepal, Sri Lanka, Cape Verde, etc.) in the following areas:

- Youth Employability
- Agile Micro-Entrepreneurship (young people, adults)
- The Awakening of 21st Century Skills (Teachers, Youth)
- The useful adoption of AIs (young people, adults, caregivers)

Our signature

- A so-called "dialogical" posture, by creating spaces for generating solutions for the audiences concerned.
 - Courses in the form of pragmatic, appreciative and constructive workshops
 - A collection of "SUPER PRACTICAL GUIDES" given to participants to extend the experience
 - Universal Benchmarks: The World Economic Forum's 21st Century Core Competencies, the United Nations' 17 Sustainable Development Goals
 - We pass on our knowledge to local NGOs/Organizations to scale up the impact independently.
